Yes, I'll get it copied to our public ftp site and send you the address and password. Hoping to get that accomplished today. It will be available for 2 weeks, and then our IT guys will delete it.

Thanks. Can we put the full report on an EA FTP site? Then we can give access to any team members who would like to have it without waiting for the cd.

Stephen,

Attached is the Field Investigation Summary Report for the October 2014 sampling event, including a Data Evaluation Summary Report for the samples collected by EA and for samples collected by the PRP.

To keep the file size low enough for emailing, many of the attachments have been omitted from the pdf file. All of the attachments are included in the CD and hard copy you will receive shortly.
